

Maeve

To say "her smile lights up a room"
Cliché or not, it's true!
And just in case we couldn't tell,
she says, "Maeve happy", too!

On sturdy legs she learned to walk
before she reached one year.
Now swinging arms like Grandma does,
she ventures without fear.

In fact, she's navigating stairs
with ease, and she can run!
She likes the big slides at the park
And monkey bars are fun!

She loves videos and puzzles
and she's the "dancing queen".
She's organized and tidy and
insists her clothes be clean.

Although pink's her favorite color,
it's blue for fingernails.
She has a surefire comfort food---
Her milk, it never fails.

Determined, smart, and happy,
and cute in every way,
Maeve, a blessing from above,
is turning two today!

With Love,
Debbie
